

Residential Collection

by Formica

PREFACE

Over the past few years, Formica® has always adhered to a human-oriented design concept. From the perspective of humanity and people's lifestyles, Formica® keeps a finger on the pulse of residential design trends. We are committed to creating comfortable, pleasant and stylish living environments.

The Residential Collection is a creative upgrade by Formica® Asia. Through creation and sustainability, the Residential Collection introduces advanced designs that best suit the Asian residential lifestyle. Today, we proudly present four design themes that best reflect 2019/2020 residential design trends.

It is a perfect time to create infinite possibilities with Formica.

9439D8 Brown Blackwood

5521NM Deep Sea

9524LM Indigo Raw Silk

9484NT Oxidized Beamwood

9436D8 Dry Blackwood

Suggested Flooring Color

A modern interpretation of Asia's rich heritage and cultural influences. Balancing character with serenity and tranquility in contemporary spaces.

- 1. Deep Sea **5521NM**
- 2. Brown Blackwood **9439D8**

- 3. Deep Sea **5521NM**
- 4. Turquoise Raw Silk **9521LM**

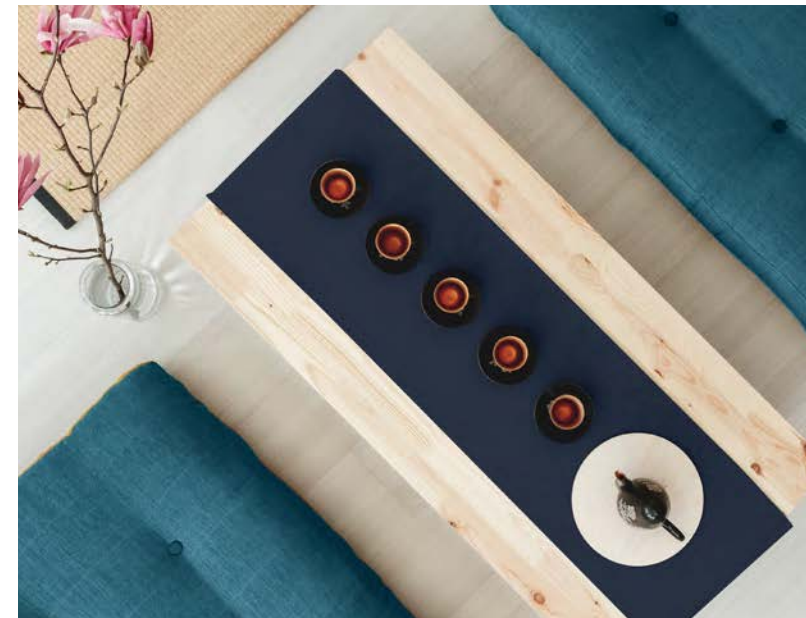

- 5. Turquoise Raw Silk **9521LM**
- 6. Dry Blackwood **9436D8**

Key Element

RAW SILK

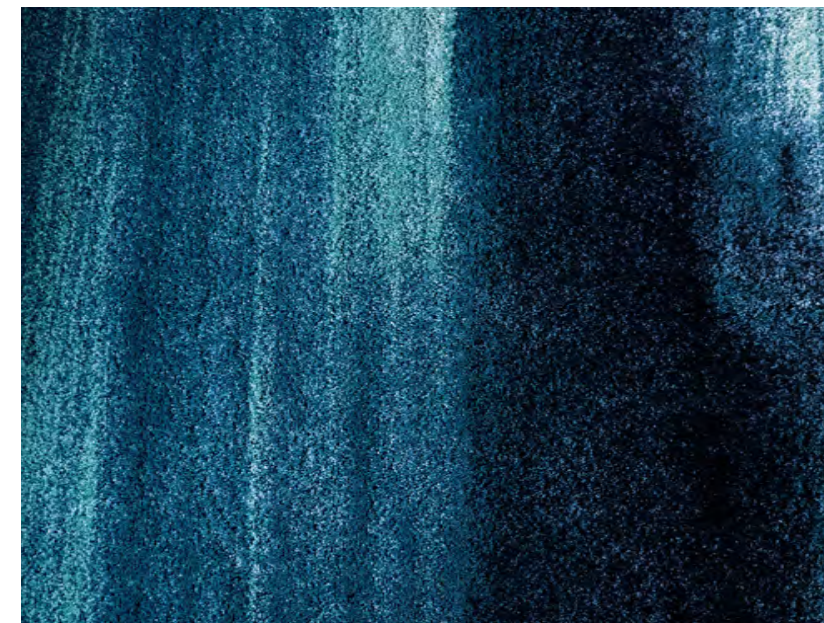

One of the oldest and finest fabrics, appreciated throughout cultural history for its visual allure. An elegant surface designed to elevate interiors by adding depth of color through texture.

Key Element

THE BLUES

From centuries-old Chinese porcelain to Japanese indigo craft dating back to the Yamato period, blue expresses authenticity, tranquility, richness and intrigue.

MODERN WOOD

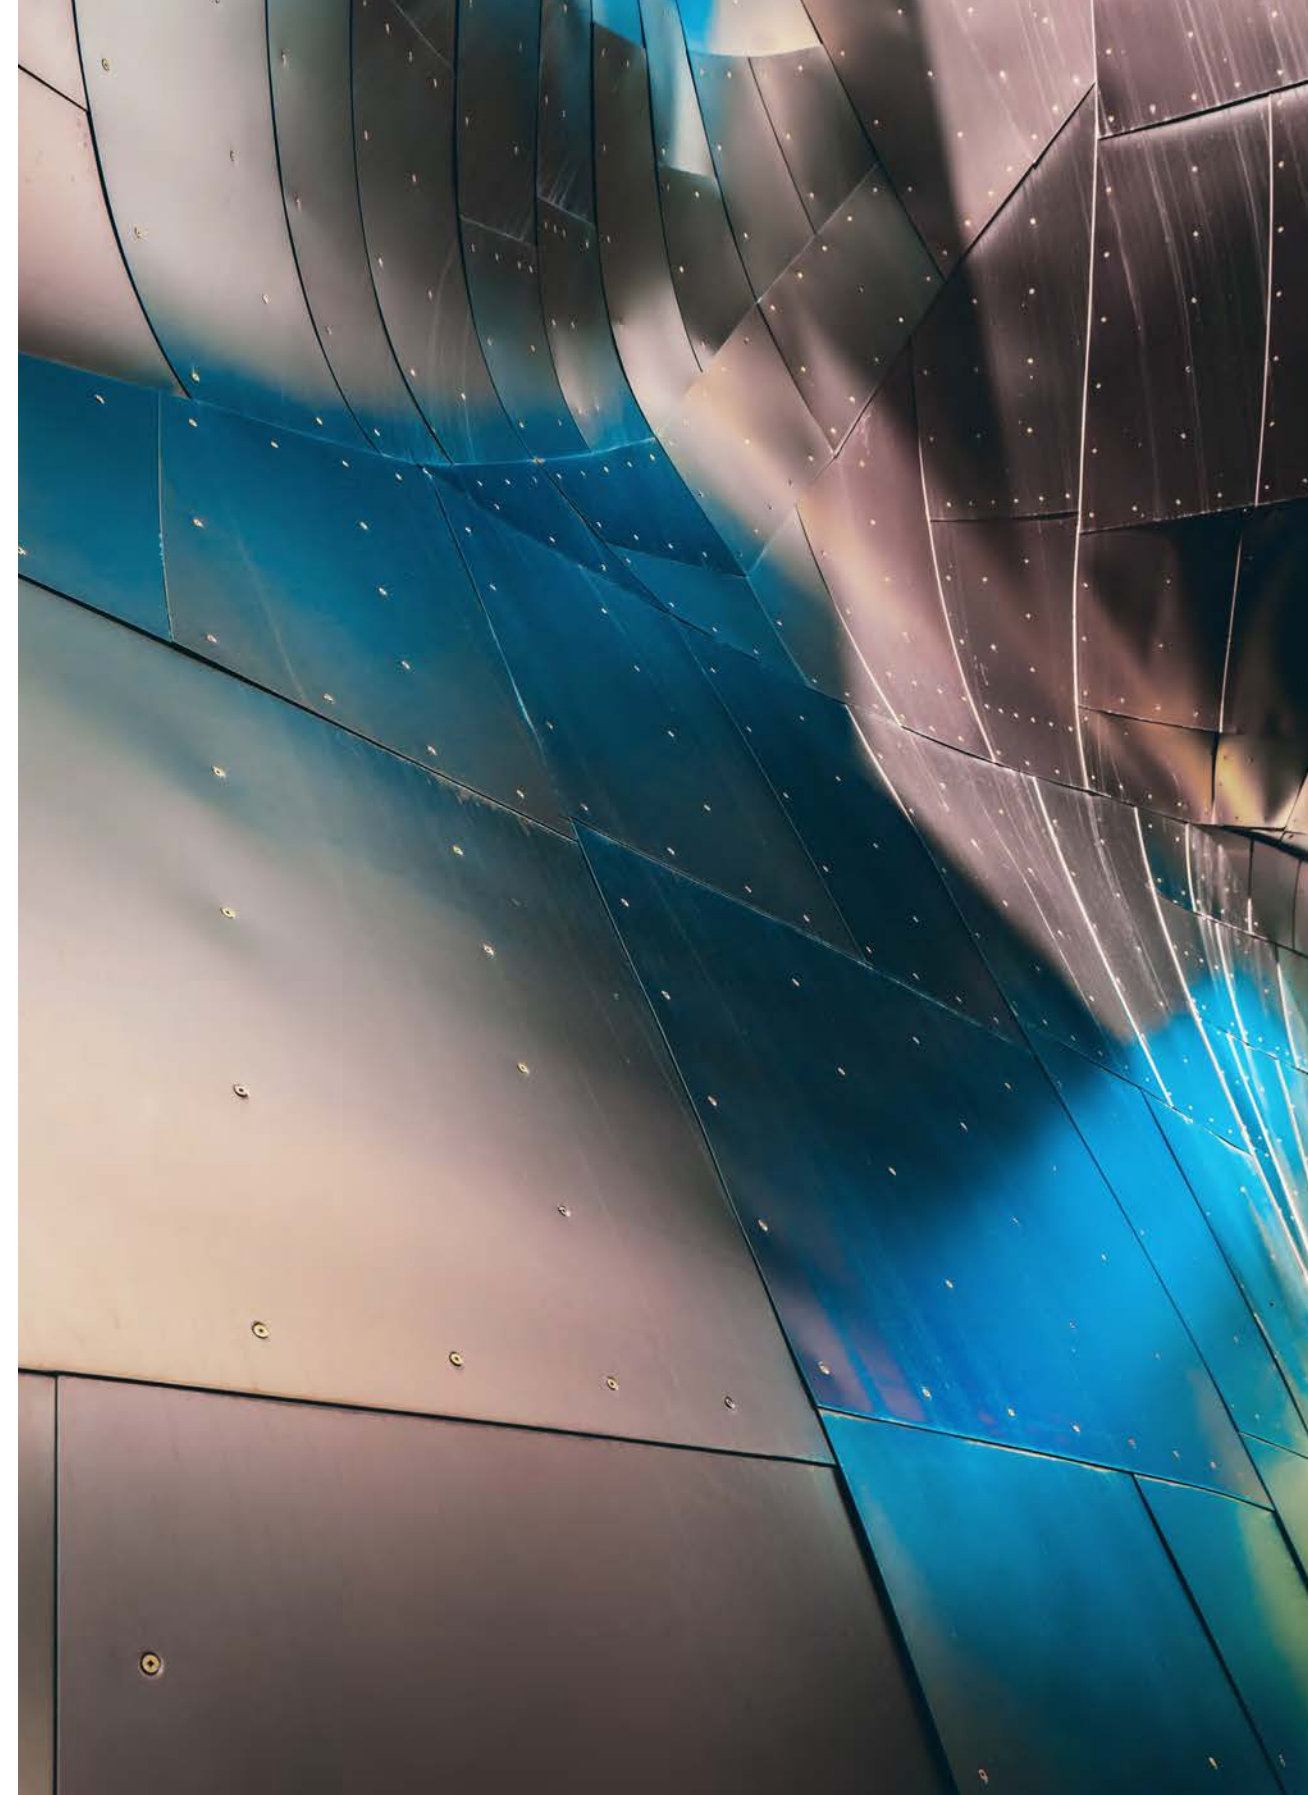

Cosy and inviting, wood surfaces add warmth to a modern Japanese-style interior, bringing life and a sense of well-being to urban living spaces.

Key Element

IRIDESCENT METALLIC

Exquisite, effortless accents that consider temperateness and gloss in contemporary spaces for lushness and light.

KEY ELEMENTS

Mineral Pink P.36

Ice Onyx P.38

Soothing Wood P.40

Key Element

MINERAL PINK

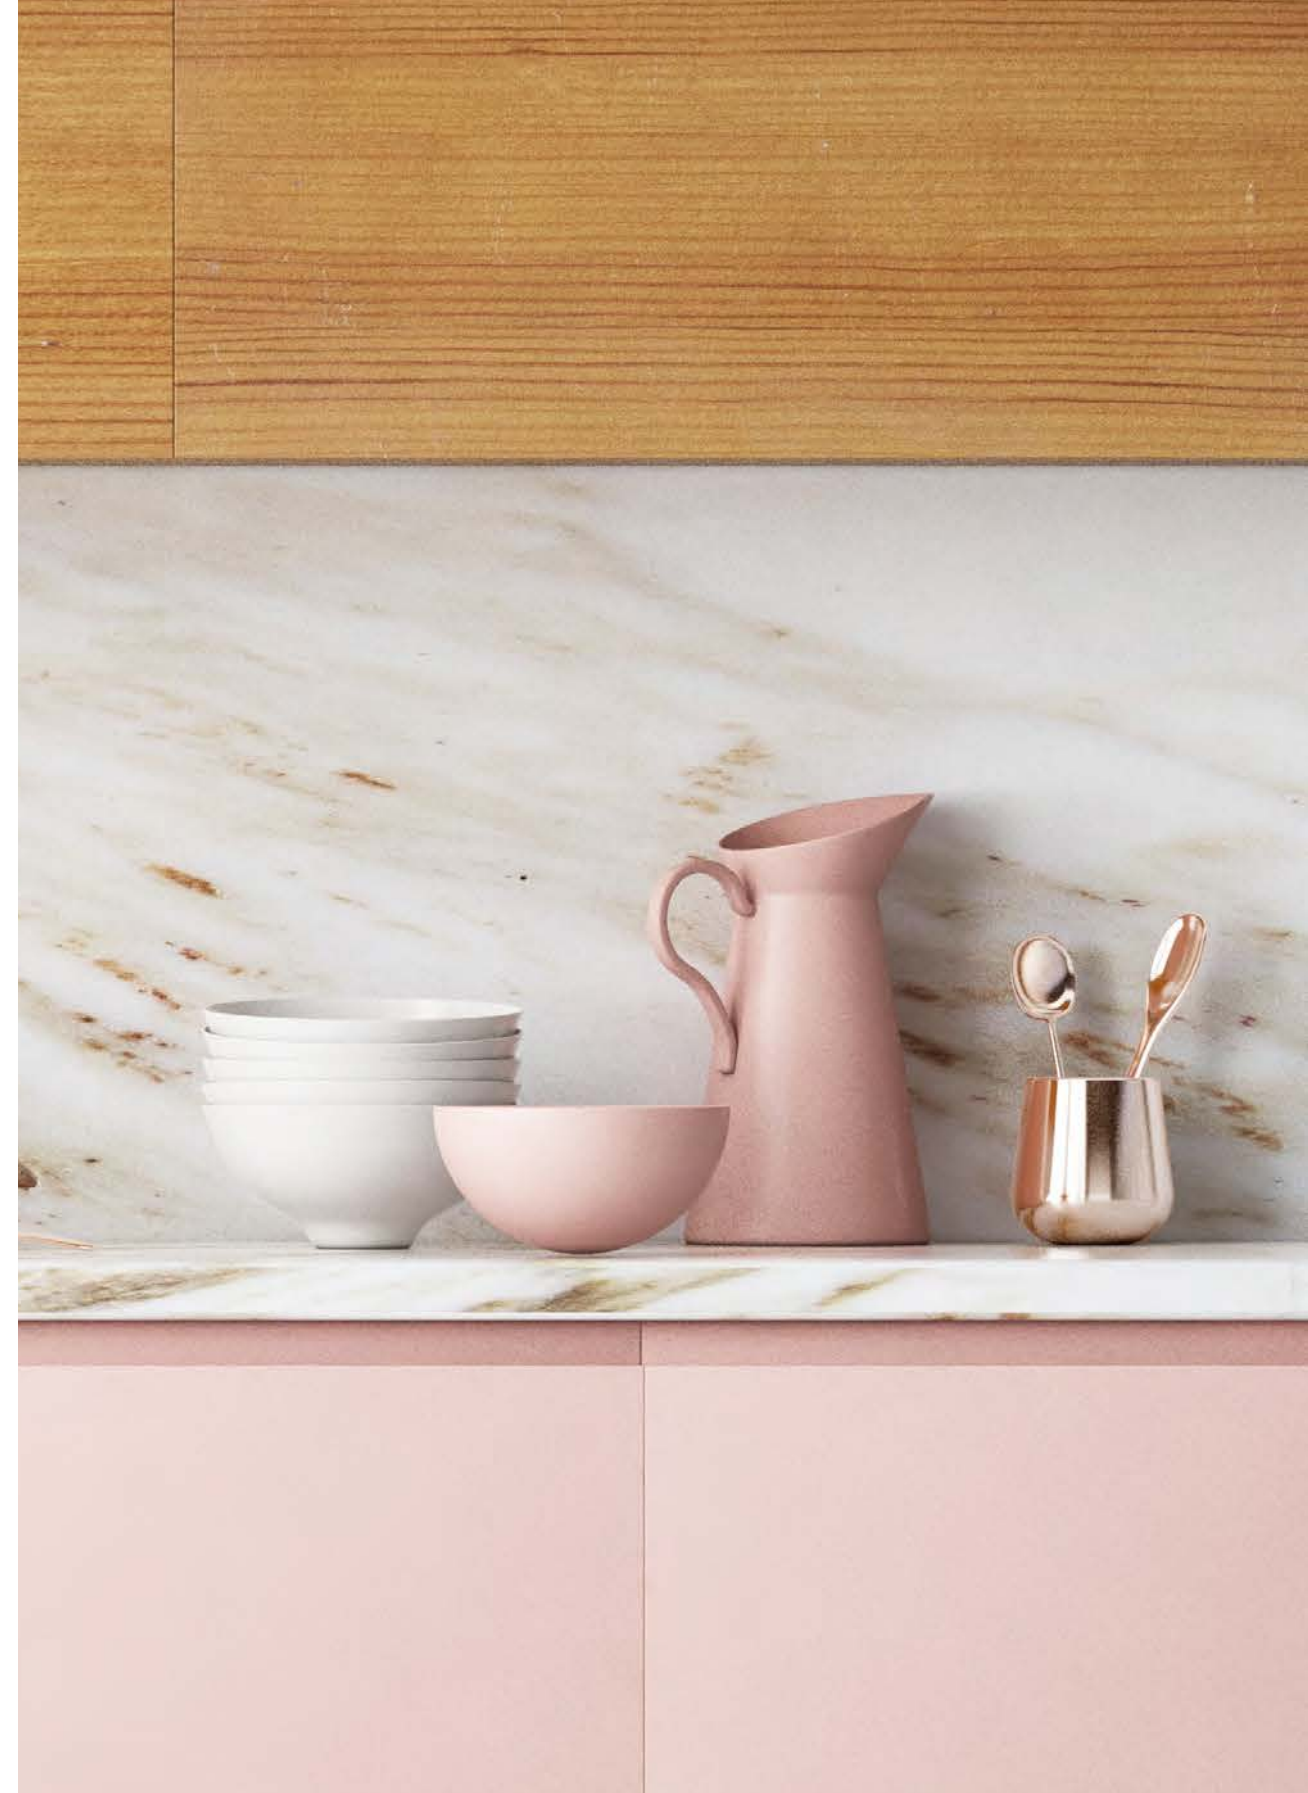

A color that speaks of balance. Where spaces are refreshed with clean lines and complementary pastel accents – leaving rooms feeling calm, light, and serene.

Key Element

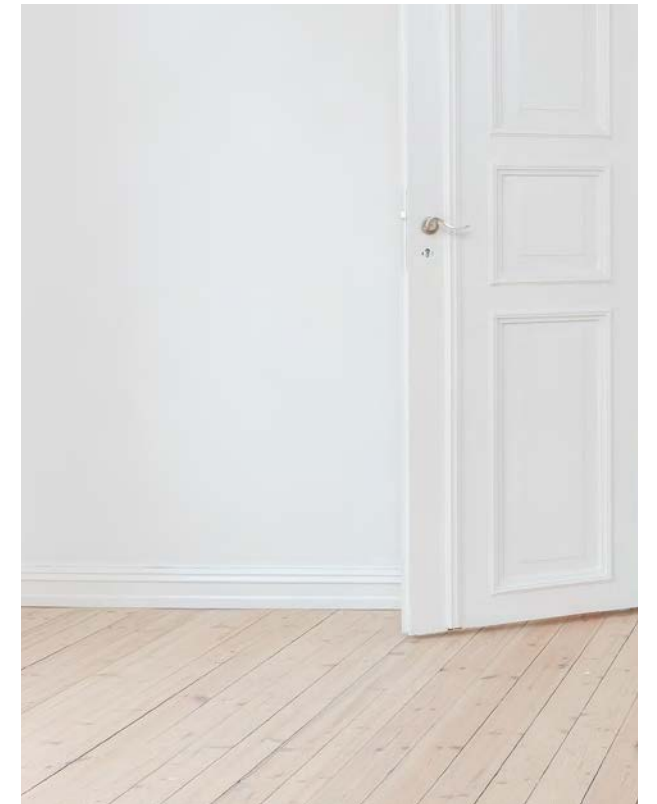

ICE ONYX

The luxurious Onyx is a cool and delicate stone material. Offering the ideal complementary partner to a pastel palette – perfect for vanity areas, kitchen tops and bathrooms.

SOOTHING WOOD

Simple, functional, and associated with minimalistic design. These faded raw wood tones add warmth, visual symmetry and character to spaces.

Fresh Nature

KEY ELEMENTS

Energetic Textile P.54

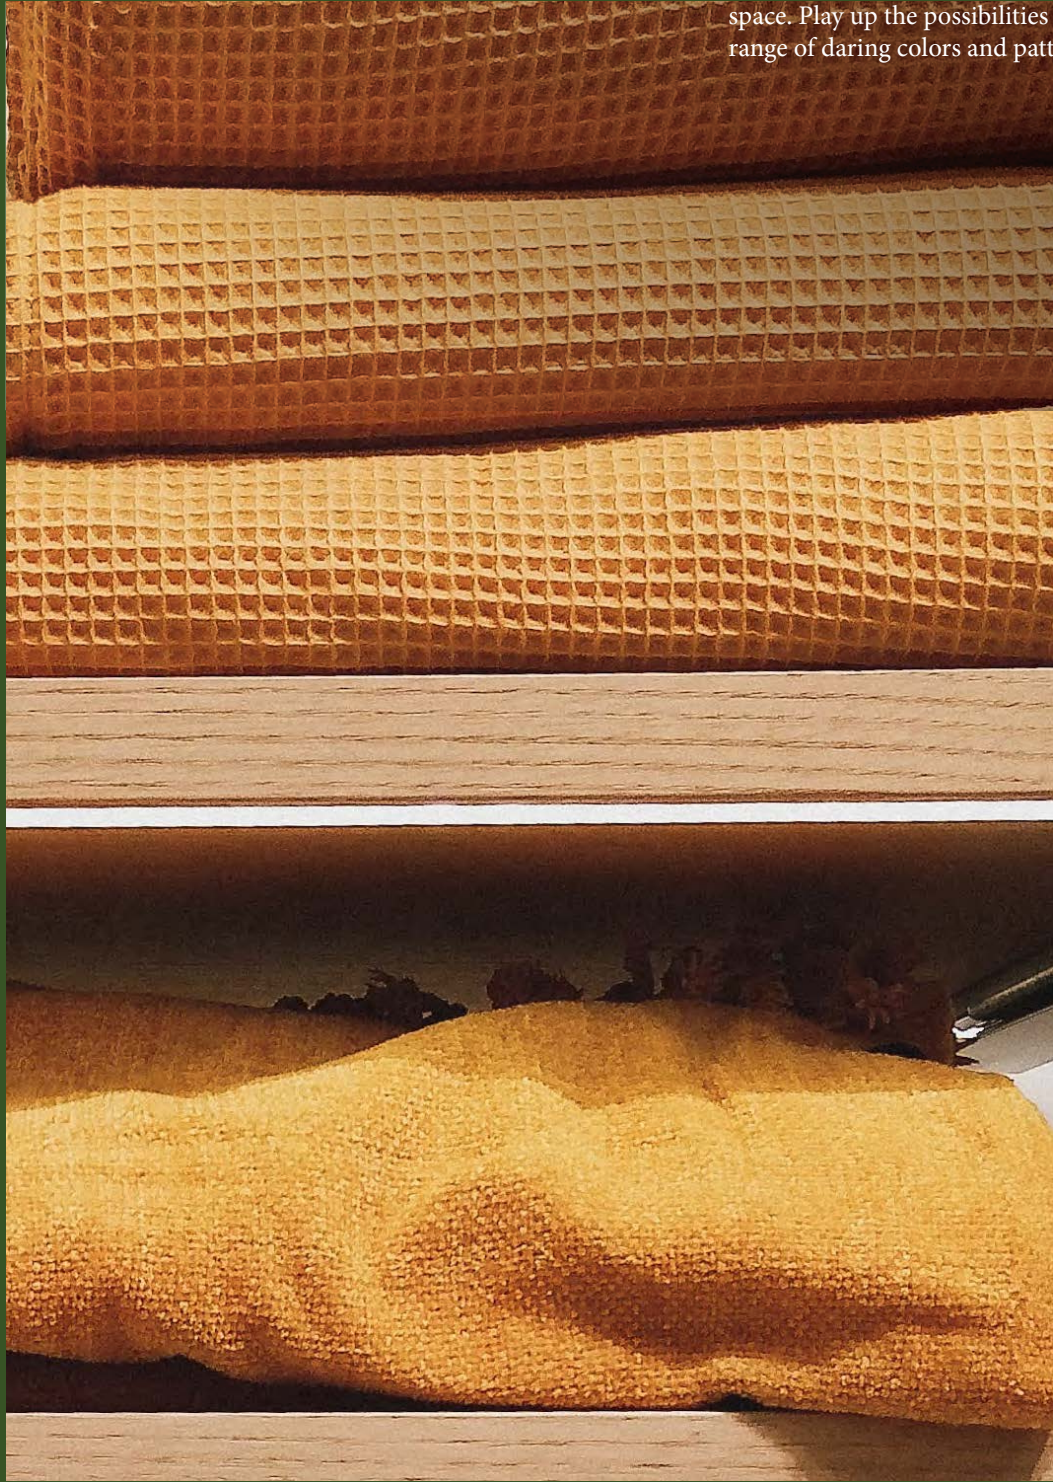

Natural Wood P.56

Chevron P.58

Modern Stone P.60

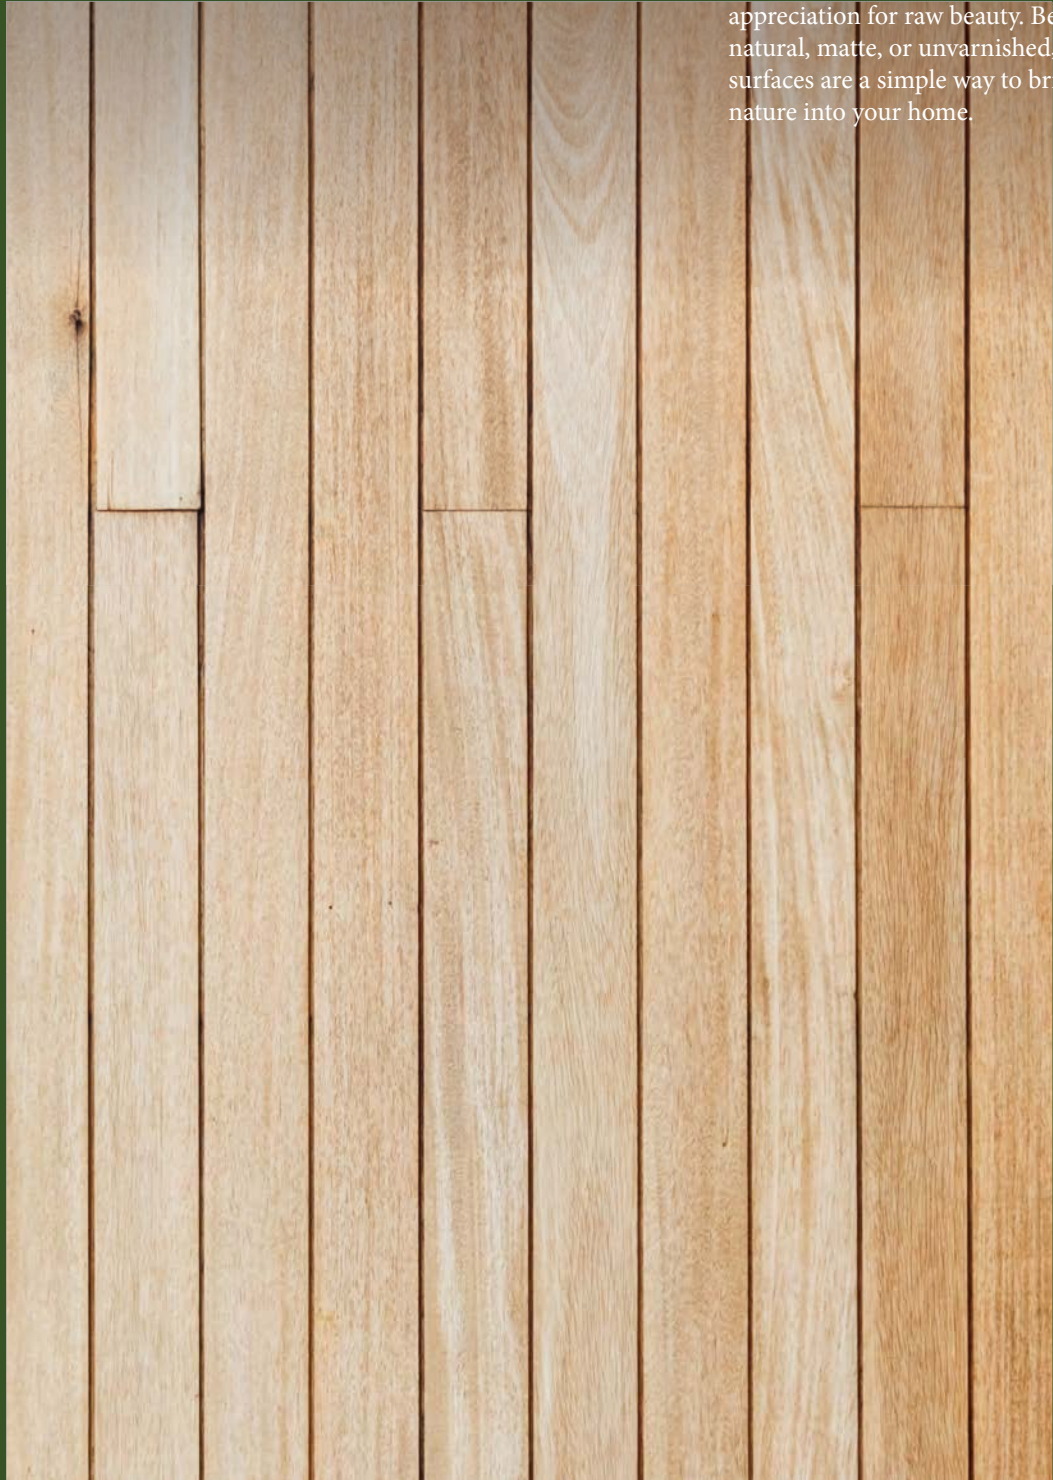

ENERGETIC TEXTILE

A refreshing pop of color through the use of fabrics and textiles in a space. Play up the possibilities with a range of daring colors and patterns.

NATURAL WOOD

Embracing the forms and textures created by nature, this element is an appreciation for raw beauty. Be it the natural, matte, or unvarnished, wood surfaces are a simple way to bring nature into your home.

CHEVRON

Surface patterning that adds a creative twist to standard wall features, doors, or screens – a stunning visual effect for nature-themed interiors.

Key Element

MODERN STONE

Big, bold, dramatic. Emulate natural stone finishings with true-to-scale surfacing patterns that add visual drama to your living space.

Sophisticated Luxe

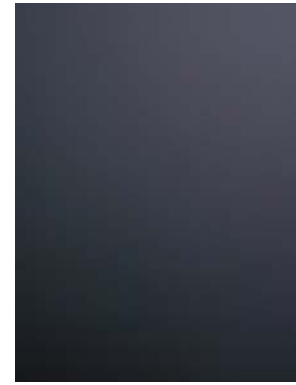

**Sophisticated Luxe

7403NM Nero Marquina

Suggested Flooring Color

The embodiment of the finer things in living spaces – taking classic patterns and transforming spaces into sheer indulgence with a hint of mythicism, fun and extravagance.

1. Blackened Legno **8848NT**

2. Frosted Champagne **8816K**

3. Violet Ash **8233NM**
4. Lavender Ash **8734NM**

5. Bronze Leather **9365L**
6. Graphite **0837NM**

7. Frosted Champagne **8816K**

Key Element

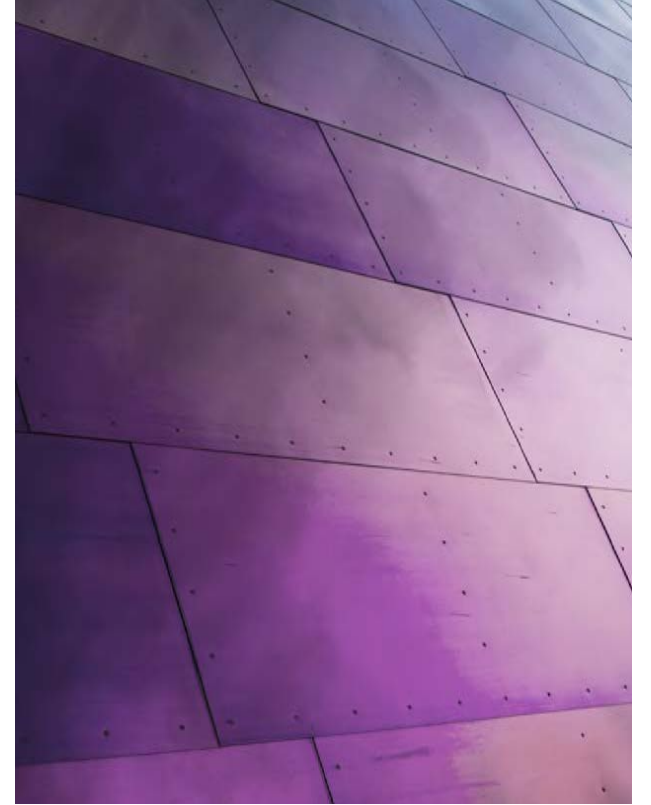

PURPLES

A shade with rich history linked with royalty, purple is a color of wealth and power, pride and wisdom, peace and creativity. Introduce refinement and independent expression into interior spaces.

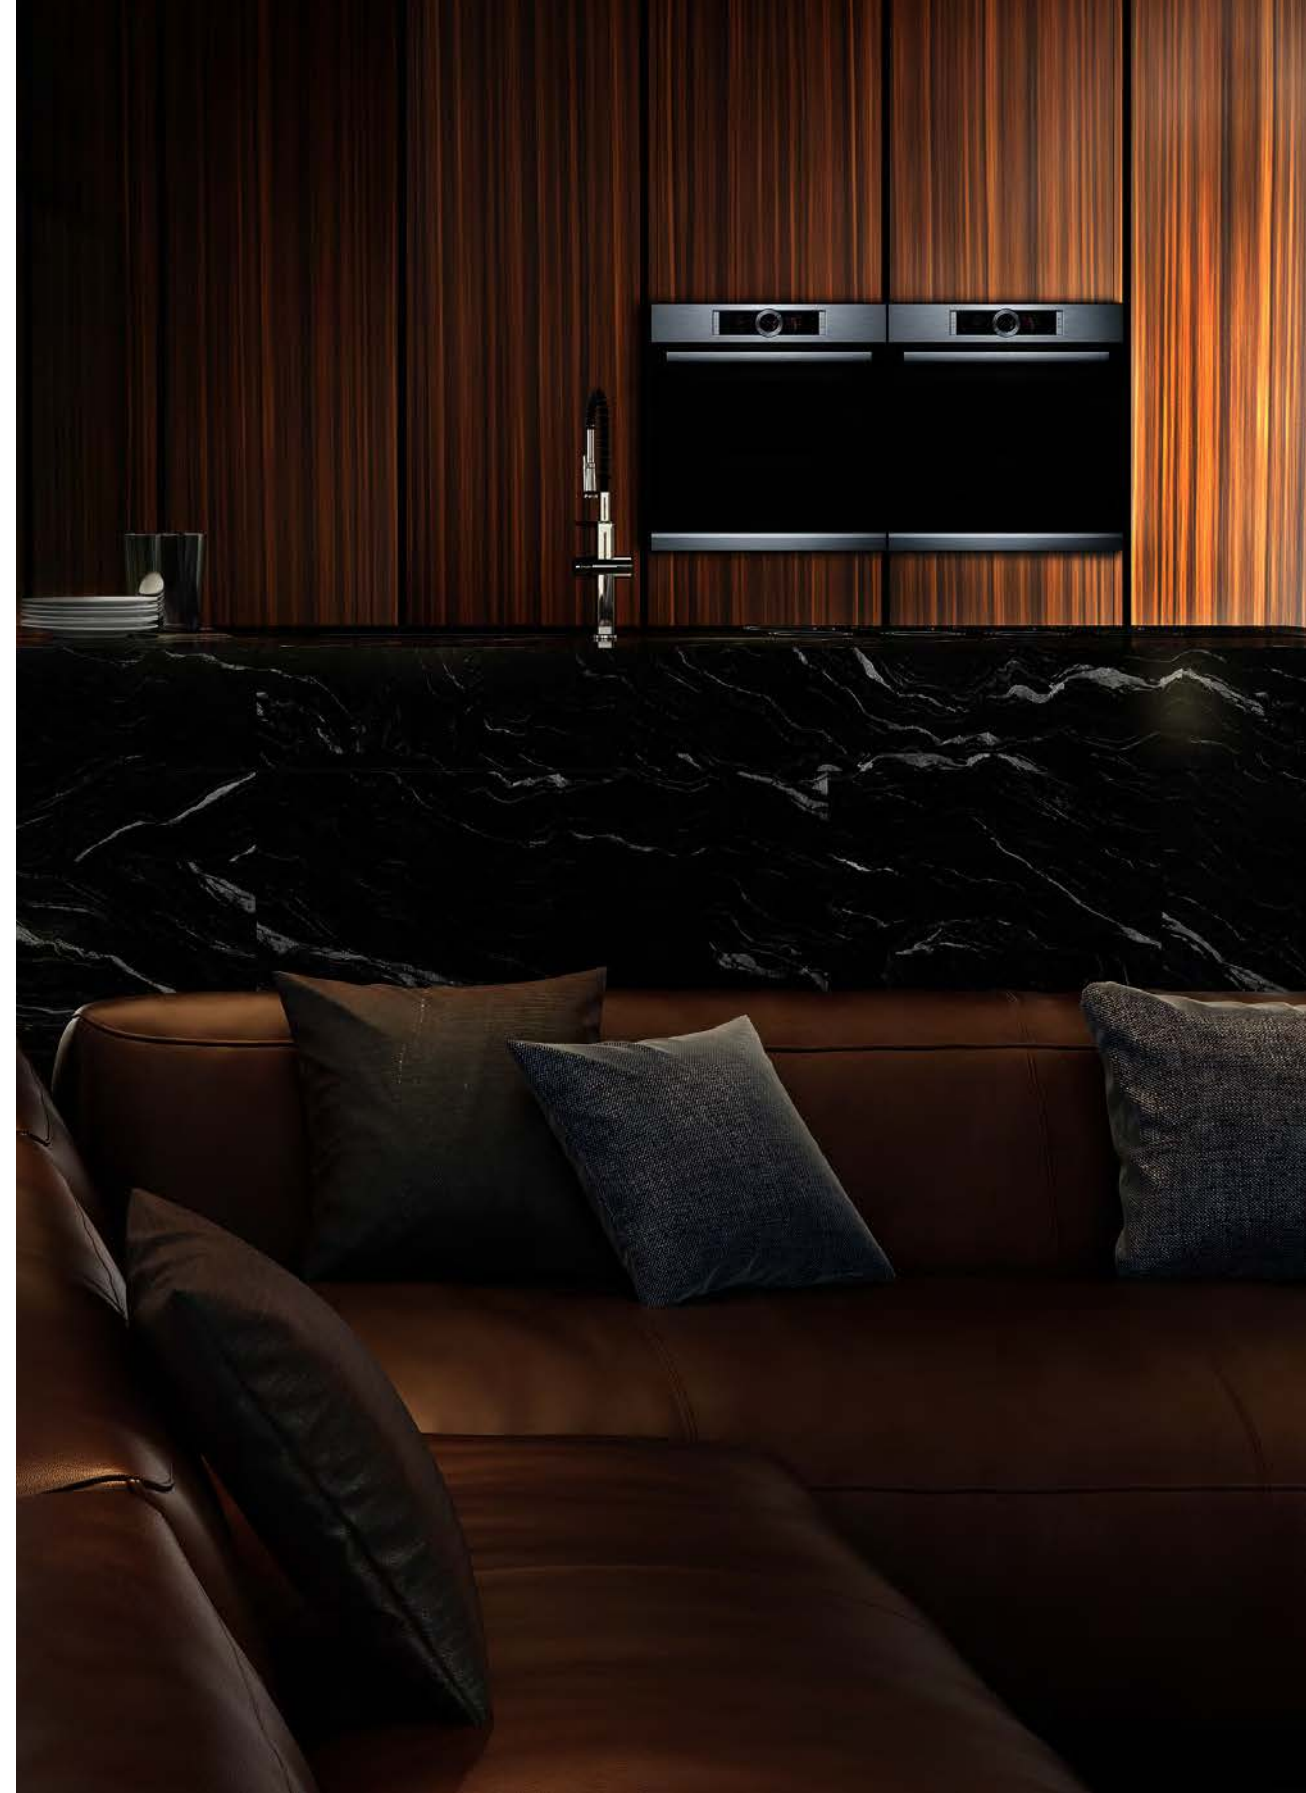

IRIDESCENT

Inspired by an emerging trend in art and design, the use of metallic materials lend a hand in creating vibrancy in seemingly dark spaces – a trick that adds a deeper air of mystery to the design when paired with purple.

CLASSIC STONE

Alluring and timeless through design, materials like Nero Marquina continue to live up to a reputation of luxuriant quality. Rich in color with white veins akin to painterly brushstrokes, it requires little work to impress.

DARK WOOD

Prevalent in high-end design, dark wood is a sophisticated classic used to add detail and depth to designs.

As a global leader in the design, manufacture, and distribution of innovative surfacing products, Formica Group is committed to our role as an environmental steward in the building, architecture and design communities, developing environmentally responsible products that have raised the bar for the entire surfacing industry.

Sustainability

REPURPOSED MATERIALS

Kraft Paper P.86

Paper Terrazzo P.88

Denim Fiber P.90

KRAFT PAPER

Inspired by common kraft paper, this collection features paper formations made out of 100% recycled pulp, burlap fiber from recycled coffee bags, and coffee bean chaff. This upcycled material creates a warm collection of colors that emanate authenticity.

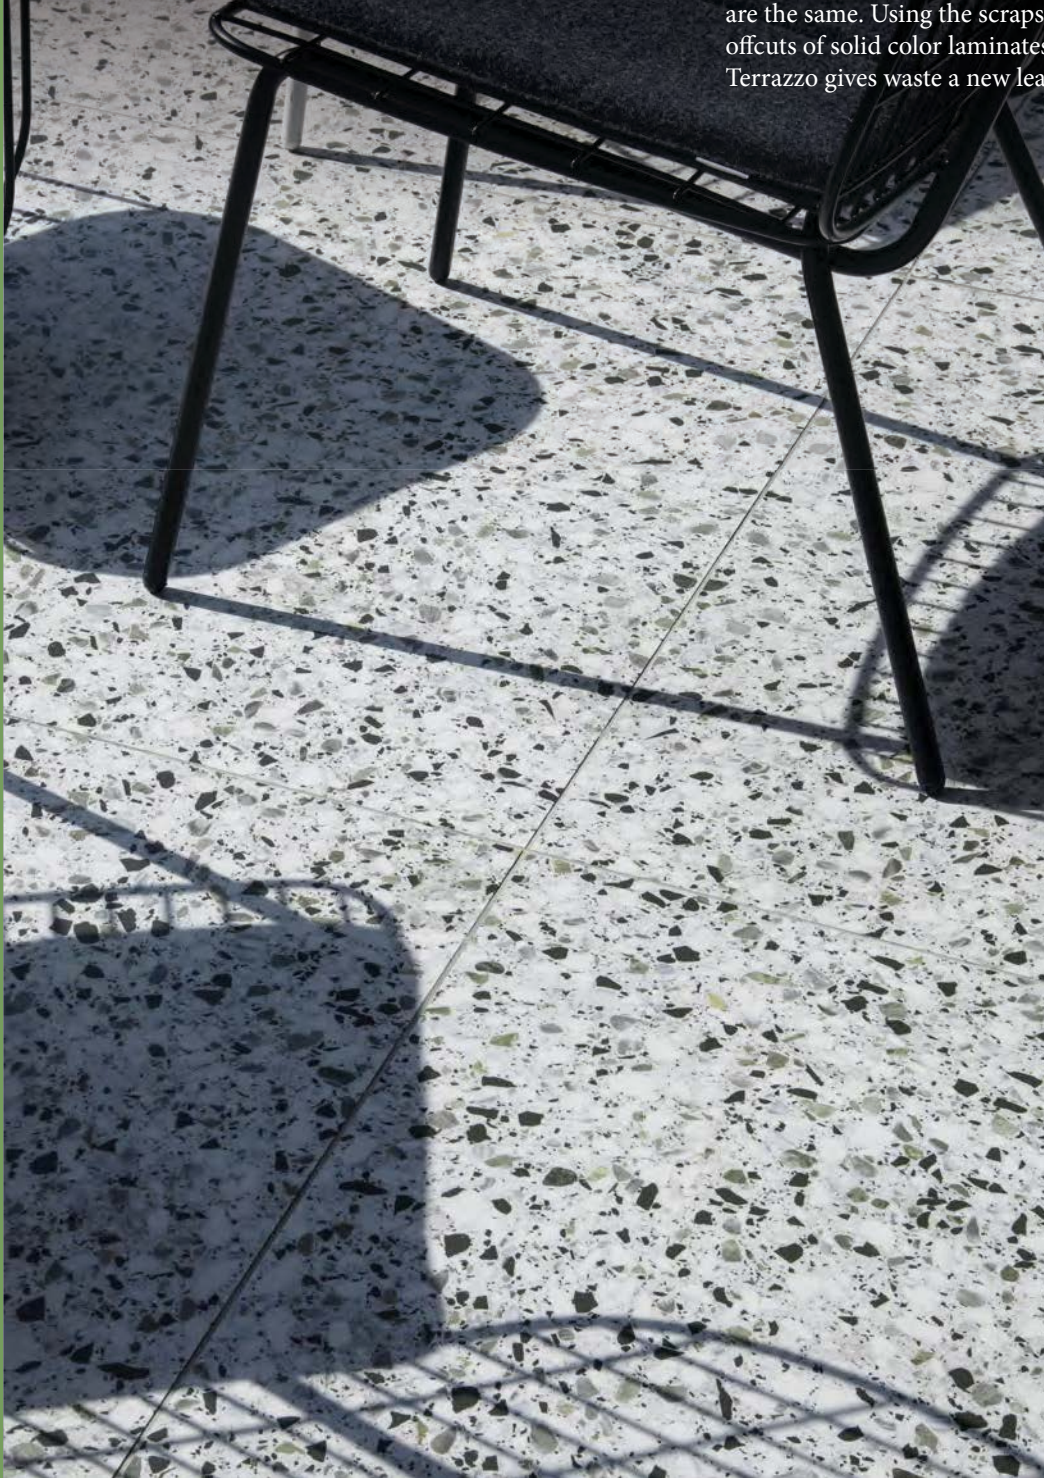

9684CK Natural Recycled Kraft

PAPER TERRAZZO

Created through small-batch craft production, no two sheets of laminates are the same. Using the scraps from the offcuts of solid color laminates, Paper Terrazzo gives waste a new lease of life.

8812CK Tinted Paper Terrazzo

DENIM FIBER

Made from reclaimed denim, this laminate surfacing concept is a 2017 Red Dot Award winner created in collaboration with paper makers and designers. Working with 60% recycled content using offcuts from blue jean manufacturers, the resulting material is an honest product – each sheet, a unique piece of its own.

9271JN Reclaimed Denim Fiber

FORMICA®'S SUSTAINABILITY STATEMENT

With sustainability as a growing concern for the global community, Formica Group makes it a priority to offer architects, designers and consumers a full range of environmentally friendly surfacing products. Formica Group continually strives to create innovative products that promote a healthier environment. Here are some of the ways we put green principles into practice.

CERTIFICATIONS

GREENGUARD CERTIFICATION

Formica Group has taken significant steps to ensure that its products promote a healthy indoor air quality in homes, offices, schools and other indoor environments. According to the US Environmental Protection Agency (USEPA), the most effective way to reduce indoor air pollution is to reduce or eliminate harmful chemical emissions. Formica® takes pride in meeting the strict emissions limits of the GREENGUARD Environmental Institute and in achieving GREENGUARD Certification for Indoor Air Quality for Formica® Laminates. Formica® Laminates, ColorCore®, Compact® and DecoMetal® are certified in Asia according to the GREENGUARD Certification and GREENGUARD Gold Certification standards for Indoor Air Quality.

SINGAPORE GREEN LABEL

Formica® Laminates and Formica® Compact® Grade Laminate are Singapore Green Label certified by the Singapore Environment Council under “Environmentally Improved Low Emission Low Toxicity” category.

CARBON REDUCTION LABEL

Formica Group is the first laminate manufacturer in the world to be awarded with Carbon Trust's Carbon Reduction Label. Formica Group demonstrates its ongoing commitment to reducing its global environmental impact by undergoing carbon footprint assessment and labelling products with the Carbon Reduction Label. Formica Group is pleased to announce that it has measured the carbon footprint for its range of High Pressure Laminates (HPL), Continuous Pressure Laminates (CPL), Compact Laminates and Bonded Worktops, which is now qualified to carry the Carbon Trust's Carbon Reduction Label.

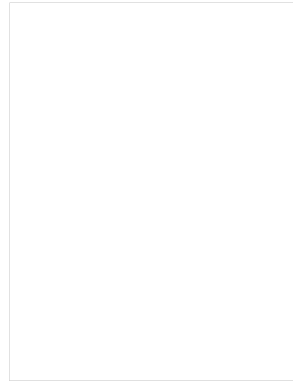

SINGAPORE GREEN BUILDING PRODUCT CERTIFICATION

The achievement of SGBP certification is a testament to Formica Group's commitment towards making sustainable principles. We are committed to creating innovative products that promote a healthier environment to support sustainable design, and protecting vital resources for future needs via our ongoing efforts to put our green principles in practice through life cycle assessment (LCA), sustainable operations and carbon reduction.

SINCE 1913

Formica®:
 Designs for today
 with forever in mind.

ABOUT FORMICA®

Herbert A. Faber

Daniel J. O'Conor

As a professional word, “Formica” has been recorded in The Oxford English Dictionary as a replacement for decorative laminates.

FORMICA'S FOUNDING

Formica® was founded in Cincinnati in 1913 by two young men, Herbert A. Faber and Daniel J. O'Conor. Their high-pressure plastic resins were intended to serve as electrical insulators replacing mineral Mica, which was used for that purpose at the time. Hence the name “Formica” was chosen. World-renowned artists and architects had also begun to recognize the potential of the decorative laminates and specified them for modernist and art deco interiors.

FORMICA'S SERVICES

Formica® offers a complete series of surface decorative products, including High Pressure Laminate, Compact® Grade, ColorCore®, DecoMetal®, Formica® Veneer, Formica® Custom Graphics™, and Formica® CHguard® Series, etc. All Formica® High Pressure Laminates conform to European BS EN438: 2008 standards. And meanwhile, we have got the certification of ISO 9001: 2008, 14001, OHSAS 18001, and GREENGUARD.

Formica® owns manufacturing bases worldwide, with four located in Asia. Major bases are located in Shanghai (China), Jiujiang (China), Hsinchu (Taiwan) and Bangkok (Thailand).

Formica's Logo History
